**Subject: Application for the Position of Python Full Stack Developer**

Dear Hiring Manager,

I am writing to express my interest in the Python / Full Stack Developer position at Sarvadhi Solution PVT. LTD. . I am a B.Tech graduate in Information Technology with a strong foundation in Python, JavaScript, React.js, HTML, CSS, Bootstrap, and MERN Stack technologies.

During my academic projects, I developed a Result Management System using web technologies and MongoDB. I have also worked on a Car Price Predictor using Python, Pandas, and NumPy. These projects helped me develop my problem-solving, programming, database, and application development skills.

As a fresher, I am eager to learn from experienced professionals and contribute to your organization. I am confident that my technical foundation, willingness to learn, and commitment to continuous improvement would make me a suitable candidate for this position.

I would appreciate the opportunity to discuss my qualifications further. Thank you for considering my application.

Sincerely,

**Haaris Ajmeri**

## 2. Portfolio

# HAARIS AJMERI

**Software Developer | React.js | MERN Stack**

### About Me

I am a motivated and detail-oriented Information Technology graduate with a strong foundation in programming, web development, databases, and problem-solving. I have experience working with Python, JavaScript, React.js, Node.js, Express.js, and MongoDB.

### Technical Skills

- **Languages:** Python, JavaScript
- **Frontend:** HTML, CSS, React.js, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Libraries:** Pandas, NumPy
- **Concepts:** REST APIs, Data Structures, Problem Solving, Machine Learning Basics

### Projects

#### Result Management System

- Developed a web-based system for managing student results.
- Created separate admin and user interfaces.
- Used MongoDB for storing student information.
- Implemented structured routes for navigation.

#### Car Price Predictor

- Developed a machine learning model to estimate car prices.
- Cleaned and processed data using Pandas.
- Used NumPy for calculations and data handling.
- Created a simple interface using Bootstrap.

### Career Objective

I am seeking an opportunity where I can apply my technical knowledge, work on real-world projects, learn from experienced professionals, and continuously develop my skills as a software developer.
